Where it all comes **together.**

**We are hiring
Physicians.**

We provide cutting edge, comprehensive medical care.

Confluence Health is an integrated healthcare delivery system that includes more than 40 medical specialties, and provides comprehensive medical care in North Central Washington. With over 270 physicians and 150 advanced practice clinicians, Confluence Health is the major medical provider between Seattle and Spokane. Our goal is to deliver high-quality, safe, compassionate, and cost-effective care close to home. Staying on the leading edge of healthcare innovation is important, so we invest in technology—to provide better care for our patients and allow our providers to operate at the highest level.

We Offer Competitive Benefits.

Confluence Health is a non-profit organization that contracts with the physicians of Wenatchee Valley Medical Group to provide medical services. The Wenatchee Valley Medical Group was founded in 1940, and is a physician owned and led organization with a long history of financial stability. In addition to competitive wages, generous insurance programs and retirement contributions, we offer a comprehensive benefits package that includes relocation assistance, annual allowances for continuing education, professional liability insurance including tail coverage, and twelve weeks of time off per year.

The quality of life enjoyed by our physicians is unparalleled.

Nestled between the foothills of the Cascade Mountains and the Columbia River, we enjoy over 200 days of sunshine annually, snow-capped mountains, and the lakes and rivers of the high desert. Our region offers a diversity of recreational activities to choose from including skiing, hiking, golf, white water rafting, fly fishing, cycling, mountain biking, and kayaking. The region also offers a family friendly environment with safe communities, good schools and opportunities for the entire family to be involved in culture and arts.

About Open Door

Open Door Community Health Centers is a network of 13 community health centers located along the North Coast of California.

We serve about 60,000 patients each year in Humboldt and Del Norte Counties, offering primary medical, dental, and behavioral health care. In 2018, we opened a state-of-the-art health center in Fortuna, and development of another new Open Door facility is underway in the college town of Arcata.

About the North Coast

From pristine beaches to meandering rivers to the tallest trees on Earth, California's North Coast is full of natural beauty. Cyclists, hikers, surfers, and more will find ample opportunities to recreate outside.

As for urban life, Eureka, in Humboldt County, is the largest coastal city between San Francisco and Portland. Nearby Arcata is home to Humboldt State University. And Ferndale farther south has a distinct Victorian charm. The vibrant art and music scene continues to draw crowds to the North Coast for a variety of festivals and cultural events each year.

UW Medicine

UW NEIGHBORHOOD CLINICS

UW Neighborhood Clinics is a network of community based primary and urgent care clinics that offer exceptional career opportunities. The clinics provide a wide spectrum of primary care and secondary care services, from pediatrics to geriatrics, using the patient-centered medical home model. All locations include on-site laboratories and digital radiology facilities for point of care testing. The clinics offer primary care six days a week, with urgent care services available at convenient locations seven days a week.

Many of our clinics have already achieved Patient-Centered Medical Home Recognition from the National Committee for Quality Assurance (NCQA) and we are seeking recognition for our remaining clinics. This highlights the unique and comprehensive care delivery that we have in place to serve the needs of our patients, including behavioral health, care management, lab and radiology, and a fully integrated electronic medical record. Through our affiliation with the world-class University of Washington School of Medicine and the top ranked primary care training program in the United States, our employees have the distinct advantage to provide our patients with an exceptionally high level of innovative care.
